

***‘It’s not the name, it’s the people behind the name
that count’***

Why change a well established name? - When Scobie & McIntosh (Catering Equipment) Ltd and Scobie & McIntosh (Bakery Engineers) Ltd split in 1995 a clause for the use of the trading names was put in place. Following the recent demise of Scobie & McIntosh (Catering Equipment) Ltd the family line of the original Scobie & McIntosh Ltd enforced the clause and by doing so revoked the licence for the use of the name.

Bill Adams was the Financial Director at Scobie & McIntosh (Catering Equipment) Ltd – we are pleased that Scobie & McIntosh (Bakery Engineers) Ltd were able to find a role for Bill, as their Management Accountant.

The team at ScoMac sees the name change as positive. **It will enable** us to establish ourselves under the ScoMac brand to be identified as before, as one of the UK’s market leaders for design, supply and manufacture to the Foodservice and Catering Equipment industry. **It will stop** any further confusion in the market place as there is a clear distinction between ScoMac Catering Equipment Ltd and Scobie & McIntosh (Bakery Engineers) Ltd.

The **team** at ScoMac Catering Equipment Ltd is **able** to clearly demonstrate that “It’s not just in the name”. We recognise the Scobie & McIntosh name has over a 100 year old history and as Scobie & McIntosh (Catering Equipment) Ltd we were at the forefront in establishing that brand as a **market leader** in the UK. Unitech Industries Ltd immediately identified that there was a wealth of experience, knowledge, and expertise at Scobie & McIntosh (Catering Equipment) Ltd. Under the banner of ScoMac Catering Equipment Ltd and with the existing team Unitech had **no doubts** that the investment in Scobie & McIntosh (Catering Equipment) Ltd would ensure the **market leader position** could be maintained

ScoMac Catering Equipment Ltd is now in the 3rd month of trading, we are pleased to announce that we already have a significant number of staff from Scobie & McIntosh (Catering Equipment) Ltd. By the end of 2009 we expect to have almost a **100 people back in employment**. The order book continues to grow week by week and as it increases we continue to add new members of staff to the Stainless Steel Fabrications, Joinery Production and Service Departments. Since January we have employed a further 6 team members from the old business. All **positives** given the doom and gloom surrounding the ‘current economic climate’.

ScoMac News

March 2009

Catering Engineer Apprentice Scheme

Scomac Technical Services working with Carnegie College and the CEDA Technical Services Group have established a Catering Engineer Apprentice Scheme.

The 3 apprentices Phillip Baxter, Craig Perry and James Nelson, will be trained in electric's, gas, plumbing and fault diagnostics.

ScoMac see this as the best investment to develop the next generation of Catering Engineers.

ScoMac maintains the distribution of Major Brands

winterhalter

ScoMac add "Solid Surfaces" to their portfolio

QUALITY NETWORK

DuPont™
CORIAN®
SOLID SURFACES

HI-MACS®
Natural Acrylic Stone™

ScoMac are now an approved distributor for both LG Hi-Macs and DuPont Corian Solid Surfaces. We can now provide the complete Solid Surface range for hot and cold foodservice solutions, fabricated in our joinery workshop in Livingston by our LG Hi-Macs and DuPont trained fabricators. The ScoMac sales team would be pleased to discuss your requirements and demonstrate the flexibility that these products have when used in a foodservice environment.

ScoMac Long Service Award

Unitech acknowledge that there is a wealth of experience in ScoMac, as the only change to the business has been the name. The Directors felt that all continued service should be acknowledged by ScoMac, we were therefore delighted to make a presentation in February 09 to Alan Davidson, Estimating & Project Manager for his 25 years service. We thank Alan for his dedication in his various roles over the years, and look forward to making similar awards in the future.
